### **SEASPACE CORPORATION PROCEEDS WITH AXYOM 50 AND RaMPS SYSTEM INSTALLATION FOR THE CHILEAN AIR FORCE**

*Poway, California, April 24<sup>th</sup>, 2008*-SeaSpace Corporation announces the installation of a 6.1 meter AXYOM 3-axis tracking antenna purchased by Vexcel for the Chilean Air Force. The SeaSpace AXYOM Model 50 provides a very high performance, and economical solution, for Low Earth Orbit satellite tracking applications. The RaMPS system can process 150 MODIS products in less than 15 minutes. SeaSpace staff is currently on-site in Chile installing the AXYOM antenna which is scheduled for completion in April, 2008.

Vexcel Corporation, a wholly-owned subsidiary of Microsoft, provides end-to-end geospatial solutions and systems to the US Public Sector and the global business community.

"SeaSpace is very excited to partner with Vexcel Corporation in this endeavor to provide an AXYOM System to the Chilean Air Force," says Oscar Martinez, COO of SeaSpace Corporation.
